

HAMER TOOLS LIGHTWEIGHT 5” FLUSH CUTTERS

The Hamer Tools lightweight flush cutters are made of high-quality forged steel.

The pinch cutting greatly reduces cutting effort and minimises fly-offs, and creates flat, flush cuts leaving no sharp edges.

Featuring a steel return spring for increased comfort during repetitive cutting.

The ultra-slim profile increases access in confined areas with grips designed for greater tool control.

Great for cutting small wire, zip ties and other fine material.

SPECIFICATIONS

CODE	CFL-5	HANDLE TYPE	Plastic dipped
TYPE	Flush Cutter	HANDLE COLOUR	Red
