

HAMER TOOLS SIDE CUTTING PLIERS

The Hamer Tools Side Cutting Pliers are a core part of the Hamer range of hand tools.

Included in the range of side cutters are 5" and 8" diagonal pliers, as well as an 8" angled head option.

Featuring short jaws and beveled cutting edges which allow close cutting.

Made from high-quality forged steel with plastic dipped handles, the side cutters are made to last and remain comfortable throughout their life of everyday use.

The hot-riveted joint ensures a smooth cutting action.

These tools are ideal for all cutting applications.
